EDUCATION

Master of Science (Data Science)

July 2024 – May 2026

Vellore Institute of Technology, Chennai | CGPA: 8.1 / 10

Bachelor of Computer Application

Oct 2021 – June 2024

Maulana Abul Kalam Azad University of Technology, West Bengal | CGPA: 8.25 / 10

COURSEWORK AND SKILLS

- **Coursework:** Machine Learning, Deep Learning, NLP, Statistical Modeling, Probability, Optimization Techniques
- **Programming & Querying:** Python, SQL
- **Data Visualization:** Power BI, Excel (Pivot Tables, Charts)
- **Frameworks:** Pandas, NumPy, Matplotlib
- **Soft Skills:** Communication, Team Collaboration, Leadership, Time Management

CERTIFICATIONS

- **Google Data Analytics:** Hands-on experience in SQL, Python, and data visualization
- **Data Visualization:** Power BI, Excel, Pivot Tables, Charts (Forage)
- **Create ML Models with BigQuery** (Google)

RESEARCH AND PROJECTS

- **Sentiment Analysis of Product Reviews (NLP):** Analyzed customer reviews using NLP techniques including tokenization and sentiment scoring to extract actionable insights on product perception and customer satisfaction.
- **NLP-based Chatbot:** Designed and developed a rule-based chatbot using NLP; analyzed user query patterns to optimize response efficiency and reduce unresolved query rates.
- **Return & Refund Loss Recovery Dashboard (Power BI):** Built an interactive Power BI dashboard to track and analyze return/refund patterns, identifying key loss drivers and recovery opportunities to support data driven business decisions.
- **A Hybrid Neutrosophic Approach to Low-Light Image Enhancement:** Researched and implemented a hybrid neutrosophic method for enhancing low-light images, improving image quality and visibility using advanced mathematical modeling techniques.
- **CNN Optimization Research:** Researched optimization techniques to improve performance of GrNet Convolutional Neural Network by analyzing training parameters and loss functions using Python.

ACHIEVEMENTS

- **Event Manager, Tesseract 2025:** Led end-to-end planning and execution of a data science-focused event featuring technical and non-technical competitions, coordinating participants and ensuring smooth delivery.
- **Data Science Hackathon:** Participated in a competitive hackathon involving rapid dataset analysis, feature engineering, and model evaluation under time constraints.
